

Abstract

Surface Mounting Optoelectronic Component and Method For Producing Same

ABSTRACT OF THE DISCLOSURE

a

a

a

5 A method for producing a surface mounting optoelectronic component ^{having} comprises the following steps: readying a base body with the optoelectronic transmitter and/or receiver arranged in a recess of the base body, filling the recess of the base body with a transparent, curable casting compound, and placing the optical device onto the base body, whereby the optical device comes into contact with the casting compound.
